

This biodegradable formulation is based on a surfactant system with fast **DYNAMIC SURFACE TENSION**, allowing for superior penetration and removal of oily/greasy soils. Containing no solvents, butyl, glycol ethers, with zero VOC's and low odor, this product is superior to most non-butyl degreasers on the market and works as well as butyl-based products in heavy-duty industrial applications. The surfactant system is derived from naturally occurring sources and has passed all the necessary testing for a green seal GS-37 standard.

Excellent for use in food service, industrial, automotive and janitorial applications for cleaning floors, walls, tables, countertops and equipment.

DIRECTIONS: Dilute 2 ounces per gallon for general degreasing and routine maintenance. More concentrated dilutions may be required depending on the accumulations of grease and oily substances.

May be used in automatic scrubbers, pressure washers, and aqueous parts washers.

Caution: It is recommended that protective gloves and safety glasses be worn when using this product. Refer to MSDS for additional safety information.
